# SEATTLE + LYON CONFLUENCE

LightArt partnered with French design studio, iwoodlove, to create a new lighting collection that redefines cross-cultural collaboration and pushes the limits of digital technology.

President and Creative Director, Ryan Smith, travelled with Guillaume Martin and Michael Damen of iwoodlove to France where the trio was inspired by the remarkable architecture and geometric nature of the Musée des Confluences in Lyon.

Combining LightArt's forward-thinking LA2 technology and advanced digital fabrication techniques allowed the team of designers to carve new angles required for a unique outcome.

The result is the FIVE X Collection: an embodiment of architecture, innovation in fabrication, and cultural influence.
